A lady asked her physician whether snuff was injurious to the brain. 'No,' said he, 'for nobody who has any brains ever takes snuff."

A careful examination of my case, and then proposed to commence a process which he stated would so reduce my system as to confine me to the bouse for at least six weeks, but I declined his proscriptions, took a dose of Branketh's Pills, called the next day and pand the physician for his visit, and pursued my travel, and this is the only instance of my being visited by a physician since I purchased the first box of Branketh's Pills 12 years ago.

My health is now vastly better than it had been for 34 years at before I commenced the use of these Pills. They have been my constant companion wherever I have been, by land or a let of Leavy Lind Parlows Stores.
